Connector Cleaner

SPECIAL FEATURES

- Portable for field usage
- Efficient installation support
- Compatible with the Pantograph Monitoring Solution connectors

DESCRIPTION

Fiber optic connector cleaners for sensors, box and cables of HBK FiberSensing Pantograph Monitoring Solution. These mechanical cleaning tools are designed to clean connectors residing in an adapter or

face plate and unmated connectors. A dry-cleaning strand is used to gently sweep and lift away dust and residues from ODC type connectors.

BENEFITS AND APPLICATION

Cleaners

- Ensure system's signal quality
- Reduce installation time and cost

Fiber Bragg grating technology

- No drift, absolute referenced measurements
- Immune to electro-magnetic and radio frequency interferences
- Passive technology fitting applications in explosive areas
- Reduced cable requirements with intrinsic multiplexing capability
- Long distances between sensors and the interrogators attainable
- Combinable with other FBG sensor types on the same fiber and same interrogator
